Masking Tapes

Available only by download from

Stukproducts.com

STUK Professional Masking Tape

STUK provide one of the very best masking tapes, to suit professional users and budding DIY'ers alike.

Thin, to avoid unsightly paint lines, but dense, to eliminate paint bleed, this is the only regular masking tape you will need in stock.

Packed in professionally printed O-ring sleeve, including barcode. Available in 18/24/36/48/72mm widths, all 50 metres long.

STUK 14-Day Clean Release Masking Tape

STUK have a very special masking tape called **CleanPeel Blue**. This product allows users to mask an area for up to 14 days, with a promise of clean and easy removal. Even if the tape is situated in UV light, this will have no effect on performance, or clean removal, within the 14-day time frame.

Why struggle?

25mm & 50mm widths.

STUK Low Tack Masking Tape

Delicate surfaces, working with plans, stencils, or maps. Arts and crafts. These are the sort of applications that typically demand a softer, low tack masking tape. Where absolute holding power is secondary, and the ability to easily remove and replace fragile objects without causing damage is of prime importance.

STUK offer low tack masking tape in 25 and 50mm widths.
