## Anti-Slip For Rugs On Carpets

STUK Anti-slip for Rugs (Soft Floors) is a perfect solution to a long-standing problem. An array of tiny hooks dominate one side of this extraordinary adhesive tape, and these hooks grab carpet pile and won't let go without a fight! The other side of the tape is coated with a high-tack adhesive to adhere to the underside of the rug. This tape will keep rugs from creeping without causing any damage to the rug or the carpet. It will also remove easily, and then bond again. The result – a rug that won't creep, slip or move on carpets, can be lifted for cleaning purposes, and then replaced again and again.

## Anti-Slip For Rugs On Hard Floors

STUK Anti-slip for Rugs (Hard Floors) is a unique adhesive tape. A strong liner is coated each side with a different adhesive technology. One side has a regular adhesive for fixing to the underside of the rug. The other side is coated with a specially developed adhesive that will adhere to surfaces such as vinyl flooring, laminate flooring, wood and varnished flooring, without causing any damage. It will also remove easily, and then bond again. The result – a rug that won't slip on hard floors, can be lifted for cleaning purposes, and then replaced again and again.

## STUK Anti-Slip Tapes

STUK Anti-slip Tape is a durable, strong grit-like surface that offers exceptional levels of grip. Excellent for steps and passageways, inside or outdoors, and all areas that would benefit from a safe, non-slip floor. Available in two widths and two colour schemes, black or black/yellow chevron. Health & Safety in the workplace, hotel, leisure facility, indeed anywhere. Packaged in STUK livery complete with 'O-ring' wrap to keep tape in tip-top condition. Barcode for easy EPOS sales.

## STUK Hazard Warning Tapes

STUK Hazard Warning Tape is a strong, durable, self-adhesive tape designed for marking areas, or warning of possible danger. This product is suitable for use internally and externally, as it withstands damp and UV. Also, this tape provides excellent abrasion resistance, making it the perfect choice for the marking of floors. STUK Hazard Warning Tape is available in two colours schemes - red/white or black/yellow chevrons.

## STUK Barrier Tape

STUK Barrier Tape is a strong, non-adhesive film printed with red/white chevrons, giving a highly visible warning of potential danger. Supplied in a dispenser box making this product very easy to use in all situations, STUK Barrier Tape is a must-stock for all builders' merchants, indeed all outlets that sell to trades people. Used extensively to cordon off areas of potential danger, often very large areas, STUK Barrier Tape is supplied as a jumbo 500 metre roll.
